NUCLEAR NEWSLETTER

Volume 2008 -02

Marsh Instrumentation Ltd. is pleased to provide our Nuclear Customers and prospects with information we hope you will find of interest and help you in your daily operations and duties.

OCI SUPPLIER Day –MAY 29TH 2008, Ajax Convention Center

Marsh has been a long time member of the Organization of CANDU Industries (OCI) and was pleased to participate in the recent Supplier Day. The event was well attended by OPG Nuclear Staff from Pickering and Darlington Nuclear Generation Stations as well as Engineering Services, Supply Chain, Inspection & Maintenance Training and Centralized Support. The biggest 'attention getter' was the **10" Ice Plug Freeze Jacket** manufactured for OPG's Pickering facility, part of a family of Products and Monitoring & Controls Systems specifically designed by Marsh to meet OPG's CSA Z299.2 requirements. Our booth focus from our **Canadian Nuclear Services Division** included the following:

- ISO 17025 Accredited Calibration and Certification Services
- Products Designed, Tested & Manufactured to CSA Z299.2 – 1985
- Technical Manpower Capabilities
- System Integration Capabilities

Organization of CANDU Industries

Thanks to all who took time to visit with our staff and to discuss your applications.

New & Expanded Website – Visit us @ www.marshinst.com

Don't forget - Marsh Instrumentation has a new and expanded Website offering complete information on the many Instrumentation Products, Calibration, Repair and Field Services offered, easy contact us features, plus detailed information on our System Integration capabilities and **specialized Nuclear Services**.
